

Education

We have the qualifications to justify a place on any communications roster for education-related work. PPS has a strong track record helping education authorities to secure permission for new schools and colleges; we have worked on educational PFI programmes and have undertaken local consultation programmes around educational changes.

Funding Education
Facilities
Spotlight on Ipswich
School

How do you finance exceptional sports facilities? We're working with Ipswich School to get permission for a new, state of the art sports park to benefit the school's students and the wider community by securing residential development on its existing playing fields.

Further Education
Spotlight on South Bristol
Skills Academy

Education has a major role to play in the regeneration of parts of our cities. We were asked by City of Bristol College to work with the local community over their plans for a £30 million state of the art skills academy in South Bristol as part of the Hengrove Park regeneration.

New Schools
Spotlight on Filton High
School

Building new schools have a major impact on the local community. PPS was asked by South Gloucestershire Council to carry out a stakeholder consultation programme on its plans for a new secondary school close to Bristol Parkway station.
